 - Drought tolerant, heat tolerant, beautiful foliage

TUFFY

High Impact
Low Maintenance

Diminutive form of flax lily, small in stature, with an upright to arched habit and gray blue foliage. Don't let its petite appearance fool you... this plant is tough! Super low water needs and loves the sun and heat. Ideal for low maintenance landscapes and a great choice as the focal point for water wise containers. Small violet flowers borne on tall stems in spring. Best suited to Western gardens.
