

Lomandra KATRINUS DELUXE™

Lomandra longifolia 'Katrinus Deluxe' PP19,262

- Leaf:**
- Grassy foliage; pine-green in sunny locations and deep green when planted in shade.
 - Foliage is broader than that of Lomandra Breeze

- Habit:**
- 3 ft H x 3 ft W
 - Tufting grass with an arched to weeping habit
 - Quick to establish & mature
 - Zone 7b-11; Evergreen in Zone 8

- Apps:**
- Very Large Planters
 - Mass, Group or Specimen Plantings
 - Home Gardens
 - Streetscapes & Commercial Landscapes

- Bloom:**
- Cream yellow spike inflorescence that sits slightly above foliage in spring; larger than those of Lomandra Breeze.

- Notables:**
- **LIKES** - Well drained soils; Filtered sun to heavy shade
 - **DISLIKES** - Over watering and temps below 15 degrees F
 - Drought tolerant, frost tolerant, salt tolerant, deer resistant

TUFFY

High Impact
Low Maintenance

Cold hardy, drought tolerant, shade tolerant, heat tolerant, salt tolerant, disease tolerant...this one ticks all the boxes. The pine green, medium-textured and weeping foliage gives you the look and feel of an ornamental grass all year long. Don't cut this one back in winter because it won't need it; evergreen into the mid teens. Ideal low maintenance option where ornamental grasses are desired.
